**DETAILED ACTION**

Claims 1 - 21 are presented for examination .

***Election/Restrictions***

*Restriction is required under U.S.C. 121 and 372.*

*This application contains the following inventions or group of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.*

*In accordance with 37 CAR 1.499, applicant is required , in response to this action, to elect a single invention to which the claims must be restricted.*

Group 1.     Claims 1 – 13 , drawn to computer network access regulating , classified in class 709 , subclass 225.

Group 2.     Claims 14 – 19, drawn to network resources access controlling, classified in class 709 , subclass 229.

Group 3.     Claims 20 – 21 , drawn to electronic shopping, classified in class 705 , subclass 26.

Because these inventions are distinct for the reasons given above and the search group required for Group I is not required for group II and Group III , restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. David Fox ( Registration No. 38807 ) on July 20, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to non-elected inventions, the inventorship must be amended in compliance with 37CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under #& CFR 1.48(b) and by the fee required under CFR 1.17(i).

Applicant is reminded to provide the "Other Document" references that are mentioned in the Information disclosure citation sheet for thorough examination.
